

# WHO WE ARE

**30+ Years Strong. Growing Business Through Lasting Partnerships And Dependable Services...  
And We're Just Getting Started.**

## About IntegraONE

### Our Mission

Our mission today is the same as it has always been — to fuel transformation for our clients by providing premium products, a service-focused client approach, and expertise in execution.

We pride ourselves on our commitment to service, and our loyal client base. Our highly specialized engineers give us a unique ability to scale and tailor solutions that operate at the highest level today, and be ready for challenges and opportunities that will shape their tomorrow.

### Our Story

Founded in 1990, IntegraONE provides clients throughout Pennsylvania, New York, New Jersey, Delaware, and Maryland with a full range of networking and technology solutions around eight core competencies: network infrastructure, data center solutions, security technologies, unified communications, managed services, IoT technologies, and technical repair services.

The solutions we build are powerful on their own — but unstoppable when used together.

IntegraONE serves clients in commercial, healthcare, higher education, K-12 education, financial, and government markets. Our commitment is to advance your organization's technology capabilities with professional counsel, flexible solutions that scale to your needs, and the ongoing support to ensure your success.

### Our Core Values

#### Commitment to Our Clients

Our success is our clients' success. Our approach to business is built on that fact.

#### For Us, By Us

We create an environment where every individual has opportunities to develop and own the company's mission and success.

#### Entrepreneurial Approach

We will never lose our "start-up-y" culture, because we will never stop thinking creatively, embracing change, and striving to do better.
